CONTENTS

No. 1 JULY, 1939

C. M. McCay, L. A. Maynard, G. Sperling and LeRoy L. Barnes. Retarded growth, life span, ultimate body size and age changes in the albino rat after feeding diets restricted in calories. Four figures ... 1

C. M. McCay, G. H. Ellis, LeRoy L. Barnes, C. A. H. Smith and Gladys Sperling. Chemical and pathological changes in aging and after retarded growth. Four figures 15

Walter C. Russell, M. Wight Taylor and Marion T. Duncan. Bone development in normal and rachitic rats. Three figures 27

H. S. Wilgus, Jr., and A. R. Patton. Factors affecting manganese utilization in the chicken 35

E. B. Forbes, Alex Black, Edward J. Thacker and R. W. Swift. The utilization of energy producing nutriment and protein as affected by the level of the intake of beef muscle protein. Four figures 47

E. B. Forbes, John W. Bratzler, Edward J. Thacker and L. F. Marcy. Dynamic effect and net energy values of protein, carbohydrate and fat 57

T. H. Jukes and T. D. Sanford. The vitamin D requirement of young turkeys. Two figures 71

J. B. Shields, H. H. Mitchell and W. A. Ruth. The effect of apple constituents on the retention by growing rats of lead contained in spray residues 87

Howard A. Schneider, J. Katherine Ascham, Blanche R. Platz and H. Steenbock. The anti-acrodynic properties of certain foods 99

No. 2 AUGUST, 1939

Agnes Fay Morgan and Edna Gavin Haynes. Vitamin B_1 content of human milk as affected by ingestion of thiamin chloride 103

Margaret Lawrenz, H. H. Mitchell and W. A. Ruth. The comparative toxicity of fluorine in calcium fluoride and in cryolite 115

Margaret Lawrenz, H. H. Mitchell and W. A. Ruth. A comparison of the toxicity of fluorine in the form of cryolite administered in water and in food 127

NATHAN W. SHOCK AND MAYO H. SOLEY. Average values for basal respiratory functions in adolescents and adults 143

MOTT D. CANNON AND GLADYS A. EMERSON. Dietary requirements of the guinea pig with reference to the need for a special factor 155

H. GOSS AND H. R. GUILBERT. The minimum vitamin A and carotene requirement of the rat 169

W. H. PETERSON AND C. A. ELVEHJEM. Conditions affecting the content of chick antidermatitis vitamin in yeast 181

BARNETT SURE. Influence of massive doses of vitamin B_1 on fertility and lactation 187

E. CHARLOTTE ROGERS. Basal metabolism of Connecticut State College students. Three figures 195

AMERICAN INSTITUTE OF NUTRITION. List of Members 205

No. 3 SEPTEMBER, 1939

WILLIAM W. PROUTY AND WILLIAM H. CATHCART. The calcium content of white bread 217

PAUL H. PHILLIPS AND R. W. ENGEL. Some histopathologic observations on chicks deficient in the chick antidermatitis factor or pantothenic acid. Four figures 227

E. F. KOHMAN. Oxalic acid in foods and its behavior and fate in the diet. Three figures 233

HARRY A. WAISMAN, OLAF MICKELSEN AND C. A. ELVEHJEM. The distribution of the chick antidermatitis factor (pantothenic acid) in meats and meat products 247

ALEXANDER B. GUTMAN AND MARGARET LOW. On the approximation of the calculated to determined calcium content of human dietaries 257

GEORGE H. HITCHINGS AND Y. SUBBAROW. The rat growth factors of the filtrate fraction of liver extracts. One figure 265

BRIAN O'BRIEN AND KENNETH MORGAREIDGE. The effect of phosphorus on the biological estimation of vitamin D activity. Two figures 277

J. O. HALVERSON, EARL H. HOSTETLER, J. E. FOSTER AND F. W. SHERWOOD. Soybean hay, alfalfa hay and yellow corn as vitamin A supplements in cottonseed meal rations for growing cattle 285

THORNE M. CARPENTER AND MORRIS STEGGERDA. The food of the present-day Navajo Indians of New Mexico and Arizona 297

RAYMOND W. SWIFT AND RICHARD M. FORBES. The heat production of the fasting rat in relation to the environmental temperature. Two figures ... 307

No. 4 OCTOBER, 1939

HELEN S. MITCHELL, GLADYS M. COOK AND KATHERINE L. O'BRIEN. Effect of several calcium salts on the utilization of lactose. Two figures 319

R. W. ENGEL AND P. H. PHILLIPS. Fatty livers as a result of thiamin administration in vitamin B_1 deficiency of the rat and the chick. Four figures 329

M. E. LOVELL AND I. M. RABINOWITCH. Factors influencing storage of protein with low-calorie diets. Two figures 339

ROBERT JOHN EVANS AND PAUL H. PHILLIPS. A new low fluorine diet and its effect upon the rat 353

GEORGE W. CRILE AND DANIEL P. QUIRING. Indian and Eskimo metabolisms 361

GEORGE W. CRILE AND DANIEL P. QUIRING. A study of the metabolism of the Maya Quiché Indian 369

HANS C. S. ARON. The relation of vitamin C deficiency to nutritional anemia. One figure 375

G. S. FRAPS AND E. C. CARLYLE. Utilization of energy of wheat products by chickens 385

JOHN HALDI, GEORGE BACHMANN, WINFREY WYNN AND CHARLES ENSOR. The effects produced by an increase in the calcium and phosphorus content of the diet on the calcium and phosphorus balance and on various bodily constituents of the rat 399

KENNETH MORGAREIDGE AND MARIAN LE FEVRE MANLY. Simultaneous appearance of a positive line test and radioactive phosphate deposition in the rachitic rat metaphysis. Four figures and one plate (five figures) 411

L. MARGARET JOHNSON, HELEN T. PARSONS AND HARRY STEENBOCK. The effect of heat and solvents on the nutritive value of soybean protein 425

No. 5 NOVEMBER, 1939

RALPH HOAGLAND AND GEORGE G. SNIDER. The synthesis of fat from protein by the albino rat 435

ALFRED GOERNER AND M. MARGARET GOERNER. The influence of a carcinogenic compound on the hepatic storage of vitamins 441

ALVIN L. MOXON AND KENNETH P. DUBOIS. The influence of arsenic and certain other elements on the toxicity of seleniferous grains. Three figures 447

LELA E. BOOHER AND ELIZABETH CROFTS CALLISON. The minimum vitamin-A requirements of normal adults. II. The utilization of carotene as affected by certain dietary factors and variations in light exposure. One figure 459

ROBERT C. LEE. Basal metabolism of the adult rabbit and prerequisites for its measurement. One figure 473

ROBERT C. LEE. Size and basal metabolism of the adult rabbit. Two figures 489

GLADYS A. EMERSON AND HERBERT M. EVANS. Restoration of fertility in successively older E-low female rats 501

JAMES H. JONES. A comparison of cereal and non-cereal diets in the production of rickets 507

OLAF MICKELSEN, HARRY A. WAISMAN AND C. A. ELVEHJEM. The distribution of riboflavin in meat and meat products 517

B. CONNOR JOHNSON, C. A. ELVEHJEM, W. H. PETERSON AND H. J. FAGEN. The preservation of the 'grass juice factor' in silage. Four figures 527

No. 6 DECEMBER, 1939

ETHEL M. LUCE-CLAUSEN AND ELIZABETH F. BROWN. The use of isolated radiation in experiments with the rat. II. Effects of darkness, visible, and infra red radiation on three succeeding generations of rats. (a) Growth and storage of vitamin A. Three figures 537

ETHEL M. LUCE-CLAUSEN AND ELIZABETH F. BROWN. The use of isolated radiation in experiments with the rat. III. Effects of darkness, visible and infra red radiation on three succeeding generations of rats. (b) Reproduction. Six figures 551

LUCIUS NICHOLLS AND ANANDA NIMALASURIYA. Adaptation to a low calcium intake in reference to the calcium requirements of a tropical population. One figure 563

J. C. BAUERNFEIND AND L. C. NORRIS. The role of the antidermatosis vitamin and a new water-soluble growth factor in the nutrition of the mature fowl 579

DANIEL MELNICK, HENRY FIELD, JR. AND WILLIAM D. ROBINSON. A quantitative chemical study of the urinary excretion of thiamine by normal individuals. Seven figures 593

LOYD A. JONES AND CLIFTON TUTTLE. The isolation of desired qualities of radiant energy for biological experimentation. Six figures 611

WARREN W. WOESSNER, C. A. ELVEHJEM AND HENRY A. SCHUETTE. The determination of ascorbic acid in commercial milks 619

MEAD JOHNSON & COMPANY 'B-COMPLEX' AWARD 627

INDEX

ACID, ascorbic, in commercial milks, determination of 619
Acid, oxalic, in foods and its behavior and fate in the diet 233
Acid, pantothenic (chick antidermatitis factor), distribution of, in meats and meat products 247
Acid, pantothenic, some histopathologic observations on chicks deficient in the chick antidermatitis factor or 227
Activity, vitamin D, effect of phosphorus on biological estimation of 277
Adaptation to a low calcium intake in reference to the calcium requirements of a tropical population ... 563
Adolescents and adults, average values for basal respiratory functions in 143
Adult rabbit, basal metabolism of, and prerequisites for its measurement 473
Adult rabbit, size and basal metabolism of 489
Adults and adolescents, average values for basal respiratory functions in 143
Adults, normal, minimum vitamin-A requirements of 459
Age changes, retarded growth, life span and ultimate body size in albino rat after feeding diets restricted in calories 1
Aging and after retarded growth, chemical and pathological changes in 15
Albino rat, retarded growth, life span, ultimate body size and age changes in, after feeding diets restricted in calories 1
Albino rat, synthesis of fat from protein by 435
Alfalfa hay, soybean hay and yellow corn as vitamin A supplements in cottonseed meal rations for growing cattle 285
Anemia, nutritional, relation of vitamin C deficiency to 375
Anti-acrodynic properties of certain foods 99
Antidermatitis factor, chick, or pantothenic acid, some histopathologic observations on chicks deficient in 227
Antidermatitis vitamin, chick, in yeast, conditions affecting content of ... 181
Antidermatosis vitamin, role of, and new water-soluble growth factor in nutrition of mature fowl 579
Apple constituents, effect of, on the retention by growing rats of lead contained in spray residues 87
Approximation of the calculated to determined calcium content of human dietaries 257
ARON, HANS CARL SIEGFRIED. The relation of vitamin C deficiency to nutritional anemia 375
Arsenic and certain other elements, influence of, on toxicity of seleniferous grains 447
ASCHAM, JESSIE KATHERINE. See Schneider, Howard A. 99
Ascorbic acid in commercial milks, determination of 619

BACHMANN, GEORGE. See Haldi, John 399
Balance, calcium and phosphorus, effects produced by an increase in the calcium and phosphorus content of the diet on, and on various bodily constituents of the rat ... 399
BARNES, LEROY L. See McCay, Clive Maine 1, 15
Basal metabolism and size of adult rabbit 489
Basal metabolism of adult rabbit and prerequisites for its measurement 473
Basal metabolism of Connecticut State College students 195
Basal respiratory functions in adolescents and adults, average values for 143
BAUERNFEIND, J. C., AND L. C. NORRIS. The role of the antidermatosis vitamin and a new water-soluble growth factor in the nutrition of the mature fowl 579
Beef muscle protein, utilization of energy producing nutriment and protein as affected by the level of intake of 47
Behavior and fate in diet, oxalic acid in foods and its 233
Biological estimation of vitamin D activity, effect of phosphorus on .. 277
Biological experimentation, isolation of desired qualities of radiant energy for 611
BLACK, ALEX. See Forbes, Ernest Browning 47
Bodily constituents of the rat, effects produced by an increase in the calcium and phosphorus content of the diet on the calcium and phosphorus balance and on various 399
Body size, ultimate, retarded growth, life span and age changes in albino rat after feeding diets restricted in calories 1
Bone development in normal and rachitic rats 27
BOOHER, LELA E., AND ELIZABETH CROFTS CALLISON. The minimum vitamin-A requirements of normal adults. II. The utilization of carotene as affected by certain dietary factors and variations in light exposure 459
BRATZLER, JOHN WILLIAM. See Forbes, Ernest Browning 57
Bread, white, calcium content of 217
BROWN, ELIZABETH. See Luce-Clausen, Ethel M. 537, 551

CALCIUM and phosphorus balance, effects produced by an increase in the calcium and phosphorus content of the diet on, and on various bodily constituents of the rat 399
Calcium content of human dietaries, on the approximation of the calculated to determined 257
Calcium content of white bread 217
Calcium fluoride and cryolite, comparative toxicity of fluorine in 115
Calcium intake, low, adaptation to, in reference to the calcium requirements of a tropical population .. 563
Calcium requirements of a tropical population, adaptation to a low calcium intake in reference to ... 563
Calcium salts, effect of several, on the utilization of lactose 319
CALLISON, ELIZABETH CROFTS. See Booher, Lela E. 459
Calorie diets, low, factors influencing storage of protein with 339
Calories, retarded growth, life span, ultimate body size and age changes in albino rat after feeding diets restricted in 1
CANNON, MOTT DWIGHT, AND GLADYS ANDERSON EMERSON. Dietary requirements of the guinea pig with reference to the need for a special factor 155
Carbohydrate, protein and fat, dynamic effects and net energy values of 57
Carcinogenic compound, influence of, on hepatic storage of vitamins 441
CARLYLE, ELMER CARDINAL. See Fraps, George Stronach 385
Carotene requirement of rat, minimum vitamin A and 169
Carotene, utilization of, as affected by certain dietary factors and variations in light exposure 459
CARPENTER, THORNE MARTIN, AND MORRIS STEGGERDA. The food of the present-day Navajo Indians of New Mexico and Arizona 297
CATHCART, WILLIAM HENRY. See Prouty, William Walter 217
Cattle, growing, soybean hay, alfalfa hay and yellow corn as vitamin A supplements in cottonseed meal rations for 285
Cereal and non-cereal diets in the production of rickets, a comparison of 507
Changes, chemical and pathological, in aging and after retarded growth 15
Chemical and pathological changes in aging and after retarded growth . 15
Chemical study, quantitative, of urinary excretion of thiamine by normal individuals 593
Chick and rat, fatty livers as a result of thiamin administration in vitamin B_1 deficiency of 329
Chick antidermatitis factor or pantothenic acid, some histopathologic observations on chicks deficient in the 227
Chick antidermatitis factor (pantothenic acid), distribution of, in meats and meat products 547
Chick antidermatitis vitamin in yeast, conditions affecting content of .. 181
Chicken, factors affecting manganese utilization in the 35
Chickens, utilization of energy of wheat products by 385
Chicks deficient in chick antidermatitis factor or pantothenic acid, some histopathologic observations on .. 227
Commercial milks, determination of ascorbic acid in 619
Comparative toxicity of fluorine in calcium fluoride and in cryolite .. 115
Comparison of cereal and non-cereal diets in production of rickets ... 507
Comparison of the toxicity of fluorine in the form of cryolite administered in water and in food 127
Compound, carcinogenic, influence of, on the hepatic storage of vitamins 441
Conditions affecting content of chick antidermatitis vitamin in yeast ... 181
Constituents, apple, effect of, on the retention by growing rats of lead contained in spray residues 387
Constituents, bodily, of the rat, effects produced by an increase in the calcium and phosphorus content of the diet on the calcium and phosphorus balance and on various 399
COOK, GLADYS MAE. See Mitchell, Helen Swift 319
Corn, yellow, soybean hay and alfalfa hay as vitamin A supplements in cottonseed meal rations for growing cattle 285
Cottonseed meal rations for growing cattle, soybean hay, alfalfa hay and yellow corn as vitamin A supplements in 285
CRILE, GEORGE W., AND DANIEL P. QUIRING. Indian and Eskimo metabolisms 361
CRILE, GEORGE W., AND DANIEL P. QUIRING. A study of the metabolism of the Maya Quiché Indian .. 369
Cryolite administered in water and in food, comparison of the toxicity of fluorine in the form of 127
Cryolite, comparative toxicity of fluorine in calcium fluoride and in 115

DARKNESS, visible, and infra red radiation on three succeeding generations of rats, effects of 527, 551
Deficiency, vitamin B_1, of the rat and the chick, fatty livers as a result of thiamin administration in ... 329
Deposition, radioactive phosphate, and a positive line test, in the rachitic rat metaphysis, simultaneous appearance of 411
Determination of ascorbic acid in commercial milks 619
Diet, calcium and phosphorus content of, effects produced by an increase in, on the calcium and phosphorus balance and on various bodily constituents of the rat 399
Diet, new low fluorine, and its effect upon the rat 353
Dietaries, human, on the approximation of calculated to determined calcium content of 257
Dietary factors and variations in light exposure, utilization of carotene as affected by certain 459
Dietary requirements of guinea pig with reference to the need for a special factor 155

Diets, cereal and non-cereal, in the production of rickets, a comparison of 507
Diets, low caloric, factors influencing storage of protein with 339
Distribution of chick antidermatitis factor (pantothenic acid) in meats and meat products 247
Distribution of riboflavin in meat and meat products 517
DuBois, Kenneth Patrick. See Moxon, Alvin Lloyd 447
Duncan, Marion Tennent. See Russell, Walter Charles 27
Dynamic effects and net energy values of protein, carbohydrate and fat 57

E-LOW female rats, successively older, restoration of fertility in .. 501
Effect of apple constituents on the retention by growing rats of lead contained in spray residues 87
Effect of heat and solvents on the nutritive value of soybean protein 423
Effect of phosphorus on biological estimation of vitamin D activity 277
Effect of several calcium salts on the utilization of lactose 319
Effect upon rat, new low fluorine diet and its 353
Effects, dynamic, and net energy values of protein, carbohydrate and fat 57
Effects of darkness, visible, and infra red radiation on three succeeding generations of rats 537, 551
Effects produced by an increase in the calcium and phosphorus content of the diet on the calcium and phosphorus balance and on various bodily constituents of the rat ... 399
Elements, certain other, influence of arsenic and, on the toxicity of seleniferous grains 447
Ellis, G. H. See McCay, Clive Maine 15
Elvehjem, Conrad Arnold. See Johnson, Bruce Connor 527
Elvehjem, Conrad Arnold. See Mickelsen, Olaf 517
Elvehjem, Conrad Arnold. See Peterson, William Harold 181
Elvehjem, Conrad Arnold. See Waisman, Harry A. 247
Elvehjem, Conrad Arnold. See Woessner, Warren W. 619
Emerson, Gladys Anderson. See Cannon, Mott Dwight 155
Emerson, Gladys Anderson, and Herbert McLean Evans. Restoration of fertility in successively older E-low female rats 501
Energy of wheat products by chickens, utilisation of 385
Energy producing nutriment and protein, utilization of, as affected by the level of intake of beef muscle protein 47
Energy, radiant, for biological experimentation, isolation of desired qualities of 611
Energy values, net, and dynamic effects of protein, carbohydrate and fat 57
Engel, Ruben William. See Phillips, Paul Horrell 227
Engel, Ruben Williams, and Paul Horrell Phillips. Fatty livers as a result of thiamin administration in vitamin B_1 deficiency of the rat and the chick 429
Ensor, Charles. See Haldi, John ... 399
Environmental temperature, heat production of fasting rat in relation to 307
Eskimo, and Indian, metabolisms 361
Estimation, biological, of vitamin D activity, effect of phosphorus on 277
Evans, Herbert McLean. See Emerson, Gladys Anderson 501
Evans, Robert John, and Paul Horrell Phillips. A new low fluorine diet and its effect upon the rat 353
Excretion, urinary, of thiamine by normal individuals, a quantitative chemical study of 593
Experimentation, biological, the isolation of desired qualities of radiant energy for 611
Experiments with the rat, use of isolated radiation in 537, 551
Exposure, light, utilization of carotene as affected by certain dietary factors and variations in 459
Extracts, liver, rat growth factors of the filtrate fraction of 265

FACTOR, chick antidermatitis (pantothenic acid), distribution of, in meats and meat products 247
Factor, grass juice, in silage, preservation of 527
Factor, growth, new water-soluble, in the nutrition of the mature fowl, role of the antidermatosis vitamin and a 579
Factor, special, dietary requirements of the guinea pig with reference to the need for a 155
Factors affecting manganese utilization in the chicken 35
Factors, certain dietary, and variations in light exposure, utilization of carotene as affected by ... 459
Factors influencing storage of protein with low caloric diets 339
Factors, rat growth, of the filtrate fraction of liver extracts 265
Fagen, Harold John. See Johnson, Bruce Connor 527
Fat, protein and carbohydrate, dynamic effects and net energy values of .. 57
Fat, synthesis of, from protein by albino rat 435
Fate and behavior in diet, oxalic acid in foods and its 233
Fatty livers as a result of thiamin administration in vitamin B_1 deficiency of the rat and the chick 329
Fertility and lactation, influence of massive doses of vitamin B_1 on 187
Fertility, restoration of, in successively older E-low female rats .. 501
Field, Henry, Jr. See Melnick, Daniel 593
Filtrate fraction of liver extracts, rat growth factors of 265
Fluoride, calcium, and cryolite, comparative toxicity of fluorine in ... 115
Fluorine, comparative toxicity of, in calcium fluoride and in cryolite .. 115
Fluorine, comparison of the toxicity of, in the form of cryolite administered in water and in food 127
Fluorine diet, new low, and its effect upon the rat 353
Food and water, comparison of the toxicity of fluorine in the form of cryolite administered in 127

Food of present-day Navajo Indians of New Mexico and Arizona 197
Foods, certain, anti-acrodynic properties of 99
Foods, oxalic acid in, and its behavior and fate in diet 233
FORBES, ERNEST BROWNING, ALEX BLACK, EDWARD JESSE THACKER AND RAYMOND WALTER SWIFT. The utilization of energy producing nutriment and protein as affected by the level of the intake of beef muscle protein 47
FORBES, ERNEST BROWNING, JOHN WILLIAM BRATHLER, EDWARD JESSE THACKER AND LAWSON FRANCIS MARCY. Dynamic effects and net energy values of protein, carbohydrate and fat 57
FORBES, RICHARD M. See Swift, Raymond Walter 307
FOSTER, JOHN ERWIN. See Halverson, John Oliver 285
Fowl, mature, role of antidermatosis vitamin and new water-soluble growth factor in nutrition of ... 579
Fraction, filtrate, of liver extracts, rat growth factors of 265
FRAPS, GEORGE STRONACH, AND ELMER CARDINAL CARLYLE. Utilization of energy of wheat products by chickens 585
Functions, basal respiratory, average values for, in adolescents and adults 143

GOERNER, ALFRED, AND MARY MARGARET GOERNER. The influence of a carcinogenic compound on the hepatic storage of vitamins 441
GOERNER, MARY MARGARET. See Goerner, Alfred 441
GOSS, HAROLD, AND HAROLD REED GUILBERT. The minimum vitamin-A and carotene requirement of the rat 169
Grains, seleniferous, influence of arsenic and certain other elements on toxicity of 447
'Grass juice factor' in silage, preservation of 527
Growth and storage of vitamin A 537
Growth factor, new, water-soluble, in nutrition of mature fowl, role of antidermatosis vitamin and 579
Growth factors, rat, of the filtrate fraction of liver extracts 265
Growth, retarded, chemical and pathological changes in aging and after 15
Growth, retarded, life span, ultimate body size and age changes in the albino rat after feeding diets restricted in calories 1
GUILBERT, HAROLD REED. See Goss, Harold 169
Guinea pig, dietary requirements of, with reference to the need for a special factor 155
